# *SELENIA<sup>®</sup>*

***In the heart of those who race.  
At the heart of your engine.***

Always ask your mechanic for *SELENIA<sup>®</sup>*

## ***Your car is factory filled with Selenia***

***The engine of your car is factory filled with **Selenia**,  
This is an engine oil range which satisfies the most advanced  
international specifications. Its superior technical characteristics  
allow **Selenia** to guarantee the **highest performance** and  
**protection** of your engine.***

---

***The Selenia range includes a number of technologically advanced products:***

### **SELENIA 20K ALFA ROMEO**

API SL Lubricant which guarantees maximum wear protection and performance of aspirated, turbocharged and multivalve engines. Specific Selenia formulation for Alfa Romeo.

### **SELENIA RACING**

This lubricant has been developed as a result of Selenia's extensive experience in track and rally competitions; it maximises engine performance in all kinds of competition use.

### **SELENIA TD**

Oil for aspirated and turbocharged and multivalve diesel engines, guarantees excellent engine cleanliness and stability even at very high temperatures.

### **SELENIA WR**

Oil specifically designed for common rail Multijet engines. Particularly effective during cold starts, it guaranteed maximum wear protection and hydraulic tappets control, reduction in consumption and stability at high temperatures.

---

**The range also includes Selenia 20K, Selenia Performer 5W-30 e 5W-40, Selenia Digitech.**

For further information on Selenia products visit the web site [www.fl.selenia.com](http://www.fl.selenia.com).

## This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

## TYRE INFLATION PRESSURE COLD (BAR)

		Tyres 205/55 R16 91W (*)		Tyres 215/55 R16 93W		Tyres 225/45 R17 91Y		Tyres 235/40 R18 91Y	
		front	rear	front	rear	front	rear	front	rear
Reduced load (2 occupants)	bar	2.3	2.3	2.3	2.3	2.7	2.5	2.7	2.7
Full load	bar	2.3	2.3	2.3	2.3	2.7	2.5	2.7	2.7
Spare wheel	bar	2.3		2.3		2.7		2.7	

(\*) For versions/markets where applicable

Tyre pressure should be increased by 0.3 bar when driving at sustained high speed. With winter tyres the pressure should be +0.2 bar higher than the rating specified for standard tyres.

## ENGINE OIL REPLACEMENT (litres)

	2.0 T.SPARK	2.5 V6 24V	3.0 V6 24V (Sportronic)	3.2 V6 24V	JTD	JTD 20V Multijet	JTD 20V Multijet (Sportronic)
Engine oil (quantity for periodical change, including the oil filter change)	4.40	5.90	5.90	5.90	5.50	5.0	5.0

Do not discard used oil in the environment

## REFUELLING (litres)

	2.0 T.SPARK	2.5 V6 24V	3.0 V6 24V (Sportronic)	3.2 V6 24V	JTD	JTD 20V Multijet	JTD 20V Multijet (Sportronic)
Fuel tank capacity	69	69	69	69	69	69	69
Reserve (litres)	9	9	9	9	9	9	9

Only use unleaded petrol with no less than 95 R.O.N.

Only use Diesel fuel for motor vehicles that meet European Specification EN590.
